" I love California. But after 15 years of one-party rule, it's barely recognizable.

We pay America's highest taxes, gas and electricity bills are crushing families, regulations are crushing business. Housing is unaffordable. Crime and homelessness are out of control.

We've got to turn things around. There's only one way: end the Democrat rule that got us into this mess!

That's why I'm running for governor. To help make this beautiful state truly Golden Again.

Will you join our movement for change? **"**
